John Wesley

Front End Developer

Aspiring Web Developer and UI/UX Designer skilled in building user-centric web applications using React, Tailwind CSS, and Firebase. I am passionate about creating clean designs and engaging animations that deliver real-world solutions. Currently exploring AI-powered features and 3D web design to enhance user experiences. With a strong foundation in HTML, CSS, and JavaScript, I aim to bridge creativity and technology in every project.

EDUCATION

B. Tech Artificial Intelligence and Data Science
St. Joseph's Institute of Technology

11/2022 - Present   *Chennai, 8.36 CGPA*

PERSONAL PROJECTS

Side GIG App Website (08/2024)
- Developed a website to introduce the platform which connects the freelancers, students and skill workers (e.g. plumbers, electricians and house cleaners) with potential clients.
- Built using react for frontend and styled the webpage using CSS3.
- We designed a responsive website with unique sections like skill highlights, success stories, and community impact, focusing on a clean, modern UI with Material UI components and animations.
- Hosted the website using Firebase hosting at https://side-gig-website.web.app.

Vutoria (E-commerce platform with AI-based virtual try -on) (09/2024 - Present)
- Currently developing an e-commerce platform featuring a virtual try-on tool powered by AI diffusion models.
- Responsible for building the front-end using React and Tailwind CSS, ensuring seamless user interaction and a responsive layout.
- Integrated AI tools to enhance the shopping experience with virtual try-on capabilities.
- Hosted the website using Firebase hosting at https://vutoria-60389.web.app/ .

Soulsborne (Integrated Learning & Career Advancement Platform) (09/2024 - Present)
- Student and Instructor Panels: Offers a seamless learning management system, where students enroll in courses, acquire new skills, and instructors manage and update course content.
- Company Integration: Companies provide real-time updates on required market skills, helping students align their learning with job requirements.
- Skill-Based Resume Generation: Students can track their progress and generate downloadable resumes, reflecting acquired skills and market demands.
- Hosted the website using Firebase hosting at https://soulsborne-bba5f.web.app.

WORK EXPERIENCE

Web Developer
Unified Mentor

06/2024 - 07/2024   *Chennai, India*

Achievements/Tasks
- Developed responsive websites using HTML, CSS, and JavaScript.
- Tested websites for usability, accessibility, and performance optimizations.
- • Developed websites with accessibility and compatibility for different browsers.

SKILLS

HTML   CSS   Javascript   React Js

Tailwind CSS   Vite Js   Python   C   Git

Figma   Github

OTHER ACTIVITES

Innothon '24, KCG College of Technology, Chennai. (09/2024)
Participated in a 30-hour hackathon, presenting an innovative virtual try-on solution for e-commerce. Developed and showcased a proof-of- concept that leverages AI for real-time clothing visualization to enhance online shopping experiences.

Internal Hackathon, Smart India Hackathon 2024, Chennai. (09/2024)
Presented the virtual try-on idea, demonstrating its scalability and potential impact in reducing online product returns and improving customer satisfaction. Collaborated with a cross-functional team to refine and pitch the solution.
